

DRY AIR 25

HEAT PIPE DEHUMIDIFICATION

How Does It Work?

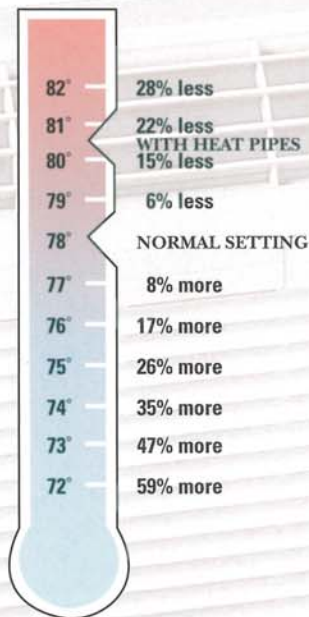

What are the reasons to buy the GE Dry Air 25 Room Air Conditioner?

RELATIONSHIP OF TEMPERATURE TO OPERATING COST

Source: FLORIDA POWER CORPORATION

COOLING

Cost of keeping room temperatures above and below 78°

- Greater comfort for guests by lowering relative humidity
- Energy Savings unit can maintain greater comfort at a higher temperature
- Healthier Indoor Air Quality...Relative Humidity below 62% eliminates growth of mold & mildew

We bring good things to life.
